# About Vedic Astrology

Vedic astrology, or Jyotish Shastra, is the ancient Indian science of light that reads the pattern of planets at your birth. Your Janma Kundli (birth chart) shows how your **Lagna (ascendant)**, **Rashi (Moon sign)**, **Nakshatra**, **12 houses** and **9 grahas (planets)** combine to shape your natural strengths, challenges, **relationships, career, health, finances and spiritual inclinations**.

Through **Dasha (planetary ruling periods)** and **Gochar (current transits)**, an experienced astrologer like Swami Ji can understand what themes are active in your life and when they are likely to unfold, helping you choose better timings for important decisions and prepare wisely for testing phases.

In Swami Prabhakar Ji's approach, Vedic astrology is not about fixed fate or fear, but about clarity, responsibility and practical remedies – using mantra, daan, seva, disciplined living and, where truly necessary, gemstones – so that you can align your actions with supportive periods and walk through difficult times with more awareness, courage and peace.

# REMEDY PHILOSOPHY

At Jeevan Rahasya, remedies are not used as fear tactics or shortcuts. They are a way to support your karma, calm difficult patterns and strengthen what is already good in your chart.

During a consultation, Swami Prabhakar Ji may suggest a combination of:

- Mantra - specific, time-tested chants to stabilise the mind and graha energies
- Daan & Seva - charity and service aligned to your chart, done with sincerity, not show
- Disciplines - changes in routine, habits and thinking that support long-term change
- Fasting or vrats - only where suitable for your health and lifestyle
- Gemstones - recommended only when clearly supportive in your Kundli and within your budget, never as a forced sale

All remedies are dharmic, practical and optional. There is no black magic, no harmful rituals and no pressure to do anything that goes against your values or capacity. You are always free to accept, adapt or decline any suggested remedy. The aim is simple: that you leave the session not only with understanding, but with realistic, doable steps that help you move forward with more stability, faith and clarity.

# FAQ Sheet

## Consultation Mode?

Consultations can be in person or online, depending on your location and Swami Ji's travel schedule. For India and tour locations (such as Singapore), in-person slots are offered where available; otherwise, sessions are done via call or video.

## What if I don't know my exact date/time of birth?

Please share the closest known time and mention how accurate it is (for example, "around 4:30 pm"). In some cases, Swami Ji may ask additional questions about your life events to understand the chart better. If the time is very uncertain or unknown, he will guide you on what is still possible to see reliably and what may remain approximate.

## How many questions can I ask in one session?

The number of topics depends on the scope you choose:

- The Essentials – one main life area
- Premier Insight – one to two main areas
- The Rajyog Consultation – up to three major areas

Within that, you are free to ask related questions during the time. If you wish to cover more areas or get a fresh reading later, you can book another session.

## Will I get a recording or written report?

You are welcome to take notes during the session. Some scopes include a concise PDF overview or a more detailed PDF report as described in the package. Audio or video recording of the session may be allowed in certain cases; please check with the team in advance. Any recording is for your personal use only.

## Can a family member join the consultation?

In most cases, one accompanying family member is allowed, especially for marriage, family or health-related discussions. However, the focus of the session will remain on the primary person's chart and questions. For full readings of other family members, a separate consultation is usually required.

  - Confidentiality
  - Your personal details and discussion are kept strictly confidential and are used only for your consultation and related follow-ups.
